

COMPUTERTOTS 'Whole School' Preschool Technology Program

The COMPUTERTOTS 'Whole School' Preschool Technology Program from COMPUTER EXPLORERS will enable your center to provide the best and most competitive technology education available today! With our preschool program, all the 3, 4, and 5-year-old children enrolled in the center participate in the program at a greatly reduced cost.

COMPUTERTOTS provides:

- ✓ A trained technology instructor that meets with the children in each classroom. The instructor starts with a group introduction of the software and learning concepts. Then the students take turns coming in small groups to have a 20-minute hands-on lesson. When all students have had a class, the instructor moves into the next classroom and repeats the procedure.
- ✓ Classes are held once a week, four times a month (or Mon- Fri during the summer in a camp setting)
- ✓ Two new pieces of software each month
- ✓ Hardware and cutting edge peripherals: Robot, Keyboarding, Digital Camera, Microscope
- ✓ New educator-designed curriculums each month with technology activities specially designed to meet the evolving needs of a 3, 4, and 5 yr old child
- ✓ 4:1 student/teacher ratio
- ✓ Parent communication
- ✓ Tuition fee based on number of children participating

Child benefits:

- ✓ Build a computer vocabulary
- ✓ Receive training on computer operations
- ✓ Interact with the computer in an enjoyable, positive way through exploration and discovery
- ✓ Actively learn in a collaborative environment
- ✓ Build self-confidence in a positive, social environment
- ✓ Have fun

Center benefits:

- ✓ COMPUTERTOTS handles and runs the entire program
- ✓ Hardware and peripherals are state of the art
- ✓ Teacher trained in technology
- ✓ Library of educational software
- ✓ New developmentally appropriate curriculums each year
- ✓ Ongoing communication with parents
- ✓ All children participate
